**Description**

This very compact panel 2.4 GHz multiple-input and multiple-output (MIMO) patch antenna is designed to operate with many manufacturers' enterprise-class 802.11n MIMO access points (APs). The antenna features two integrated 2.4 GHz patch antennas in one enclosure, making it an ideal and aesthetically pleasing antenna to support demanding indoor or outdoor applications in next generation IEEE 802.11n wireless communication systems. Great for use with MikroTik and Ubiquiti High Power 802.11n outdoor wireless systems. Designed for all weather operation, the HG2410DP features drain holes in the radome help prevent moisture build-up inside the antenna. The antenna is supplied with a 30 degree tilt and swivel mast mount kit. This allows the antenna to be positioned for optimal performance. It can be adjusted up or down from 0° to 30°. It can be mounted to a 1" (25.4 mm) to 1.7" (43.2 mm) dia. masts.

**Specifications**

Details

Manufacturer's Product Code	HG2410DP
Frequency Range	2400-2500MHz
Gain	10dBi
Polarisation	Vertical or Horizontal
Vertical Beamwidth	55deg
Horizontal Beamwidth	55deg
Connector Type	2x N-Type Female
Dimensions	104x104x90mm
Pole Mount Diameter	25-43mm
