**Description**

The TwistPort Shielded Adaptor TPA-RBC for RouterBoards make RouterBoard 9 series, 7 series and 4 series compatible with all TwistPort Antennas. TwistPort Shielded Adaptors are equipped with an integrated shield to decrease RF noise and improve weather resistance. TwistPort Adaptors are equipped with our original quick locking waveguide port. Installing compatible RouterBoards in our TwistPort Adaptor is very simple and requires no tools.

**Features**

TwistPort Adaptors make most popular connectorised radios and MikroTik RouterBoards compatible with TwistPort antennas

Integration into TwistPort ecosystem ensures the benefits of low loss, high scalability, easy co-location, simple deployment and easy maintenance

**Specifications**

**Details**

Manufacturer's Product Code	TPA-RBC
Frequency Range	5180 - 6400 MHz
Polarisation	Dual Linear H + V
Connector Type	(2) MMCX Right Angle; (1) TwistPort Waveguide Connector
