

CA-240

L-com 50ohm Coax CA-240 Cable Per Metre

Stock Level: **Product in stock**

\$4.60 + GST

Description

The L-com CA-240 series coaxial cable features excellent low loss characteristics and is ideal for shorter cable runs and "jumper" cables. The CA-240 features a UV resistant polyethylene jacket. This cable is a high performance alternative to LMR-240 cable. Great for making your own coax cables for 3G/4G LTE Cellular and WiFi 2.4GHz/5GHz applications.

Features

- High performance flexible coaxial cable construction
- Excellent low loss characteristics
- UV resistant polyethylene jacket

Specifications

Details

Manufacturer's Product Code	CA-240-R500
Cable Type	CA-240
Cable Length	1 Metre
Jacket Rating	UV resistant polyethylene
Signal Loss	900MHz - 24.8dB, 2500MHz - 42.4dB, 5800 - 66.8dB (Signal Loss at 100m)
