netatmo > WELCOME

netatmo welcome

DESCRIPTION

BE NOTIFIED WHEN YOUR LOVED ONES ARE HOME

Welcome is able to identify the faces it sees and send their names to your smartphone. Be notified when your children or elderly parents arrive home. The camera also alerts you when it sees a stranger at your home. Thanks to the App, see who is at home, access live streaming and previous footage.

YOUR PRIVACY IS FULLY PROTECTED

Customize Welcome's privacy settings for each person: switch off video recording or notifications for different people such as your partner. Videos and identification data are stored locally on the camera's SD card. A screenshot of each event is stored for free in the cloud.

A SEAMLESS SETUP

Welcome's setup is easy and fast: place the camera indoor facing your entrance, plug the camera in and download the App. Identify your loved ones with a click.

AN OUTSTANDING CAMERA

• Full HD images
• Wide 130° field of view
• Excellent night vision
• Records only when motion is detected
• No subscription, no fee, no contract
