

MX-EX2010xxA-N

Cambium cnMatrix EX2010 10-Port Enterprise Switch

Ethernet Speed

1Gbps

Stock Level: **Product in stock****\$729.00 + GST****Description**

Introducing Cambium Networks' cnMatrix EX2010, this next generation switching platform offers a cloud managed, high performance, feature rich enterprise grade ethernet switching solution.

The cnMatrix series of fully managed switches delivers full Layer 2 and Layer 3 capabilities with enhanced access security. cnMatrix switches deliver power savings with several models offering fanless operation. The cnMatrix switch series offers flexibility with four 10Gbps (SFP+) uplinks on the 28 port models while offering two 1Gbps (SFP) uplink ports on the 10 port models.

Features

- Easy and simple free cloud management with cnMaestro
- Zero touch deployment of switches makes deployment easy
- Zero touch policy based configuration enables automation, reduces errors and network downtime
- Device profiling, automatic port configuration and network segmentation improves security posture of the network
- Wireless Aware: Together with Cambium Networks cnPilot
- Wi-Fi solution, enables a simple, easy-to-use cloud managed Unified Wired-Wireless access solution
- Affordable, high quality and enterprise grade Layer 2, Layer 3 feature set
- Limited lifetime warranty (5 Years)

Specifications**Details**

Manufacturers Product code	MX-EX2010xxA-N
Non-Blocking Throughput	20Gbps
Gigabit Ethernet Ports	8
Uplink Ports	2 SFP
Serial Console Port	1 RJ45
USB	1 (Reserved for future use)
OOB Management Port	1
Internal Fans	Fanless
Power Supply	AC/Internal
LEDs Per Port	Link/activity
Temperature Range	-0°C to +50°C
Operating Humidity	+55° at 95% RH
Storage Temperature	-40°C to +70°C
Weight	1.6kg
Dimensions	21 x 4.4 x 25cm
